

Payments to Directors and connected persons

Ontario Regulation 4.01 under the Charities Accounting Act, allows Sinai Health Foundation, as a charitable corporation operating in Ontario to compensate directors and persons connected to them, without a court order, provided specific requirements are met.

Under this Regulation, a court order is no longer necessary for certain payments, provided the requirements of the Regulation are met.

Such payments need to be declared in our annual audited financial statements as well as being stated on our website.

Please see this landing page for details when we have such a declaration to make.
